PRAKRUTHI Theme Park

BIODIVERSITY

Mission:

**Vasudhaiva Kutumbakam
“One for all - all for one”**

- 1) Understanding Prakruthi to understand oneself.**
- 2) Prakruthi - As a part of treatment regimen.**
- 3) Prakruthi - Avishkar as a part of innovation**

There are many lessons yet to be learnt from nature. Ancient hindus developed tremendous intuition and perception to harness & sustainably use them in everyday life for their “Needs”. This themepark will help children and students to develop these senses even further.

This tradition of studying, understanding & enjoying nature’s bounties is one thing but to appreciate & seek solution from Nature has to be inculcated. Such solutions are expected to be sustainable.

THEME PARK

Theme park, spread over a area of 15 acres will have as many diverse life forms developing towards a park or trail where children and adults walk, meditate, study & enjoy. If the park has animals that might be dangerous, we will have to develop safe trails or transport.

This theme park will also provide value to the presentation of Indian knowledge system such as Ayurveda for further development.

They will learn about plant & animal classification.

Better understanding of ecological zones.
