To change the attitudes of parents and society at large by providing dignity and support to develop to their full potential.

This includes an initiative to discourage parents who are considering female infanticide. The program will support parents to promote girl child education, development and leadership.

The program is not adopted to provide an opportunity for parents to return and take back their daughters if they change their mind later.

However, if they do not, we would like to motivate them to be their best by providing opportunities with KEDS (KENSRI Excellence Development Systems).

We expect to cater to
200-250
such girls.

**GIRLS RIGHTS ARE
HUMAN RIGHTS...**

What sunshine is to flowers
girls are to **humanity**

then why is humanity so **cruel**?
who **kills** them even before they
see the first sunshine?

Stop female foeticide.

SAVE Girl Child.
